THE RALEIGH NEWS

VOL. XIV—NO. 49. RALEIGH, N. C., THURSDAY MORNING, OCTOBER 24, 1878 $5.00 PER ANNUM

The New Canadian Cabinet.

Now that all eyes are turned to Canada, whose new ruler, the Lord of Lorne, so soon assumes the reins of power, it may not be uninteresting to give some facts in reference to the new cabinet. Referring to this body, the Times says:

"The Canadian Cabinet just formed under the leadership of Sir John A. Macdonald cannot be charged with inexperience or working incapacity. All its members are mature in years, and with a single exception all have at different periods occupied Ministerial positions, either in the the Goverment at Ottawa or in their respective Provinces. Sectional feeling, which is rooted more deeply in the Dominion than in the United States, has been adroitly conciliated. Religious antagonisms, which, as recent events have shown, are cherished with a bitterness known nowhere else out of Ireland, have also been overcome, an Orange Grand Master and Sovereign" taking a place at the Council-table presided over by an acknowledged representative of the Irish Catholics. It is worthy of note, moreover, that in a country where partisan animosities are pursued with a relentlessness that rarely gives way to generosity, only one of the twelve new Ministers is open to attack on ground involving his official integrity; for though the circumstances under which the Premier was last ejected from office would in England have been a barrier to his return, they did not imply any act of personal corruption. Colonial life, indeed, even with the wide latitude accorded to the Canadian Provinces, is not so prolific of great men that parties can easily replace dexterous leaders or organize a Government out of material not open to partisan assault."

Before the Legislature Meets.

A lawyer, in a letter which appears in another column, suggests an amendment in the form of indictments for murder. As one of the principal things expected of the legislature will be economy and retrenchment of expenses, they could hardly start better than by saving the courts the useless expenditure of time over obsolete forms, for time is money. Our correspondent suggests that the lawyers elect to the Legislature would do well to consider amendments needed to acts relating to legal procedure before the General Assembly meets. It is not a bad idea. The farmer and merchant legislators would do well to consider before hand those acts which are demanded by the needs of their own calling as well as the people at large.

THE SWEEP OF THE GALE.

Damage at Washington—Baltimore Visited by the Storm—Rough Water on Chesapeake Bay.

By Telegraph to the News.

WASHINGTON, October 23.—A heavy rain storm, accompanied by violent wind from the northeast, passed over this city last night. From one until seven this morning the wind was very high, unroofing houses, uprooting trees and doing other damage. Owing to the storm the signal office received only 20 out of the usual 120 reports from the various signal stations. The Western reports came by way of New Orleans. It was an Atlantic Coast storm and did not reach the Mississippi Valley.

The storm came from the tropics. At 11 o'clock on the morning of the 20th the Signal Service ordered up signals at Key West for a storm. In South Florida on the morning of the 21st the storm was to the southeast of Key West, and on the morning of the 22nd, to the east of Southern Georgia. At midnight of the 22nd it was, with greatly increased velocity, central near Cape Hatteras, on the North Carolina coast. The maximum velocity of wind, as reported, was 60 miles an hour. From midnight to noon to day the storm, rapidly increasing in energy, was central near Baltimore.

BALTIMORE, Oct. 23.—The storm here did great damage. Around the basin the water rose very high, several wharves being submerged, and there was some damage to shipping. The steamer Florida, which left for Norfolk yesterday and returned this morning, reports having had her bow badly stove in by a heavy sea off Point Lookout, and was unable to proceed. She also reports having seen one of the Weems steamers, supposed to be the Theodore Weems, with her machinery disabled, apparently drifting and with signals set, but the Florida, owing to her crippled condition, was unable to render any assistance. The telegraph lines north of Baltimore, are still down.

Baltimore Banking House Failure.

By Telegraph to the News.

BALTIMORE, Oct. 23.—The banking house of Clabough, Nelson & Co, has suspended, having made assignment to J. Alex. Preston, for the benefit of its creditors. The cause of the failure is attributed to the losses of the senior partner, W. H. Clabough, in the St. Clair Hotel, of which he was proprietor, shrinkage in real estate and general dry-rot in business of the banking houses. The liabilities of the hotel and the banking house are about $100,000.

Pimlico Races Postponed.

By Telegraph to the News.

BALTIMORE, Oct. 23.—The races at Pimlico were postponed to-day, on account of the flooding of the track by the severe storm of wind and rain last night.

A Thief Caught.

By Telegraph to the News.

WASHINGTON, October 23.—John Brudell was arrested here to-day on a charge of robbing congressman A. M. Waddell, of North Carolina, at the Metropolitan Hotel last May.

Important Bank Decision.

By Telegraph to the News.

WASHINGTON, Oct. 23.—Attorney General Devens has rendered a former decision that National banks, in making up capital subject to duty, may be permitted to deduct United States bonds at their face value, and now decides that they may deduct the amount invested in such bonds, not only their face value, but with premium added. The opinion is expressed in the Treasury that this decision will reopen 50,000 assessments made by the Treasurer since the passage of the National Banking Act, and considerable money will be required to refund erroneous duties collected from the banks under the previous rulings.

CAPITAL NEWS.

Going Home to Vote—The President off to another Fair etc.

By Telegraph to the News.

WASHINGTON, Oct. 23d.—All department employees entitled to vote at the November elections will be allowed sufficient leave of absence to visit their representative States for that purpose.

The President and Mrs. Hayes, Secretary Sherman and Geo. A. Gustin, Private Secretary to the President, left for Cumberland, Md., to-night.

Secretary Sherman is gathering statistics, preparatory to work upon his annual report, which will be a very lengthy one. It is said that he proposes to enlarge upon the question of specie resumption, but will not urge any additional legislation to that end, as he regards the question settled and before such legislation could he had specie payments will have been reached. In regard to the National banks, he will argue that they will be in condition to co-operate with the Government in carrying out the existing statutes, as they are now in possession of ample means to that end.

The 18th Regiment of infantry has been directed to move from the Department of the South to the West, for operations against Indians. Several companies of the Second Artillery will be sent South to replace the 18th Infantry.

Legislative Amendments to the Laws.

Correspondence of the News.

GREENSBORO, N. C., Oct. 22, '78.

As the NEWS has recently very wisely remarked, it is certain that owing to the short session of our next Legislature, much legislation must be thought over and put in shape before the legislature meets. If it has to be put in crude and run the usual chance of being hammered into shape by legislative hammers and bellows, much desirable legislation will come through the mill still in a crude state, or not at all. Our laws need amendment in many minor details that only lawyers can appreciate. As the NEWS is justly regarded as the leader in political and legal thought at the State capitol, I would suggest through your widely read columns that the members of the bar who are members elect to the legislature would do the public and themselves a service by considering before the legislature meets what amendments the laws regarding legal procedure, especially, require and by having their bills matured and ready drawn. I might cite many instances where amendments would be advisable, but will cite only one as a sample. Every one who has attended a trial for homicide has heard the long-winded bill of indictment drawn in the jargon of three centuries ago and covering several pages with useless and cumbersome allegations and reiterations. In England many years ago an act of Parliament provided that a bill of indictment for murder should read thus:

"The jurors for the Queen on their oath present that A. B., on such a day, in such a county, did kill and murder C. D."

A similar act here would save hundreds of dollars, in the aggregate, in saving the time of the court. Many similar amendments are needed.

LAWYER.

The Talk About War With Mexico.

San Francisco Alta.

After the arrival of Gen. Sherman in this city from his trip across the continent and through Arizona, it was hinted through some of the journals that his trip, avowedly to visit and inspect the military posts in the Territories, was really intended as a sort of reconnoissance of the border—its defenses and means of defense in case of a flare-up with Mexico, &c. The comments made in this line appeared then unauthorized, and probably there was no basis for them. But now we are told by a telegram from Prescott, Arizona, that several military men—for instance, General Wilcox, Col. Weeks, Capt. Craigue and others—were to leave that town for an inspection of posts in Southern Arizona. The rumor was—so the telegram states—that the journey of those gentlemen along the boundary line is in relation to the affairs existing between the United States and Mexico, and with reference to a possible, if not probable, rupture; so we infer, although it is not so stated. It may possibly be that such is the case; yet so far as is known here, President Diaz has been doing everything within his power to prevent any and all causes which might lead to such a result.

The Wealth of Texas.

New York Tribune.

A Texas railroad has been exhibiting specimens of the products of the country through which its line passes, the collection including 100 varieties of peaches, some weighing from ten to fourteen ounces; seventy-five varieties of apples ripening all the way from the middle of May to Christmas time; clusters of grapes fourteen inches long, and over a hundred different kinds of valuable wood.

Colonel Duncan K. McRae.

Wilmington Review.

We are pleased to learn, as we do through a letter received here this morning, that Col. Duncan K. McRae, the talented and eloquent North Carolinian, formerly a resident of Wilmington, now of Chicago, has determined to remove to this city, where he will practice his profession. The move will be made about the first of November, when Col. McRae will bring his family with him.

A Venerable Relic.

What is said to be the oldest house in America, standing in Suffolk county, is to be torn down, it seems, by a purchaser who wants the ground on which to build a residence. There is little hope that so interesting a relic will be preserved. When it cost an effort to save the Old South Church, in Boston, not even the exertions of antiquaries would be likely to rescue from destruction a tumble-down house with only local associations, though it is more than two hundred years old.

Letter from Forsythe.

Correspondence of the News.

WINSTON, N. C., Oct. 23d 1878.

Superior Court opened yesterday, Judge Graves presiding. There is quite a full docket, but no important cases.

REVENUE INVESTIGATION.

Col. Tupper, U. S. Commissioner, has been for several days at the Central Hotel, investigating certain charges preferred against Dr. Wheeler, Revenue Collector. C. B. Watson and G. B. Everett, Esqs., are engaged for the government. Dr. Wheeler acts for himself. A great many witnesses, many among the most prominent persons in town, have been examined, and many others are still to be called in. From the limited information obtainable, it is impossible to judge as to the result. Dr. W. stands high in the estimation of the people, and has given the utmost satisfaction to all dealing with him. He has, also, a very gentlemanly set of officers associated with him; but some of his subs are not so highly considered.

PUBLIC SPEAKING.

Col. Armfield, the Democratic candidate for this Congressional District and Mr. John Brower, volunteer National candidate, addressed our people in the Court house yesterday. We were unable to be present, but can judge of their merits by the general impression made upon the people. Col. Armfield's speech is said to have been able and well timed, while his opponent's was said to be very muddy and dirty. Col. A. has been canvassing in the western counties, from which he brings promising news. He says he will have made 56 speeches when he closes this trip. There seems to be a general opinion that the Nationals will concentrate on Col. A., as neither Mr. Brower, nor Mr. Helper were nominated by the Nationals, though both claim to run on that ticket. Col. Armfield's views on the financial topics are so liberal and wise as to meet the most fastidious sensible Nationals.

At 1 o'clock to-day, Maj. Robbins addressed a large audience. He spoke about two hours and electrified the audience, but did not meet the anticipation of the Nationals on the finances, as they expected he would suit them better.

THE WINSTON LIGHT INFANTRY

were well pleased with their visit to the State Fair, and have reason to feel quite complimented, as their Capt., A., B. Gorrell, was promoted to the majority of the 1st Battalion, and the Surgeon, Dr. R. F. Gray, to the position of Assistant Surgeon Gen'l of the State. This company, though few in number as yet, deserve much credit for the energy displayed in getting organized, equipped and drilled in so short a time, and will doubtless reflect credit on our town some day.

Business is rather dull at present, but the tobacco crop, though not so large, is of much better quality and will be more valuable than usual.

Diptheria is raging among children; the health of the town with that exception, is remarkably good.

The Male Academy is progressing under most favorable auspices this session.

Death of Admiral Paulding.

Boston Herald.

Admiral Hiram Paulding, who died at Huntington, L. I., Saturday, was born in Westchester county, N. Y., December 11, 1797, and was the son of John Paulding, one of the captors of Major Andre in the Revolutionary War. He entered the United States Navy as a midshipman Sept. 1, 1811; was engaged in McDonough's victory on Lake Champlain in 1814; became a lieutenant in 1816; accompanied Porter in his cruise against the West Indian pirates in 1823. He became a captain in 1844. In 1857 he supressed an intended expedition to Nicaragua, headed by William Walker. He became a rear-admiral on the retired list in 1861, and was in command of the Brooklyn Navy Yard from 1862 to 1865. He rendered valuable service in equipping vessels for active employment in the navy, and in protecting public property during the riots of 1863, and became governor of the Philadelphia Naval Asylum in 1866.

The Military and the Carolina Fair.

Charlotte Observer.

The ladies are heading a movement to get up a premium to be offered at the Carolina fair for the best drilled military company, and the soldier boys can depend upon it that the premium will be one well worth contending for. There are now reasons for supposing that there will be from ten to fourteen companies here. Col. Alexander is making strong efforts to induce as many to come as possible, and feels certain that the military display will be as large here as it was at the State fair. Gen. Jones, who is now in the city, has consented to be present and review the troops, so that it will be seen the military feature will not be an insignificant feature of our fair.

In addition to that mentioned above for the best drilled company, other individual and company prizes will be offered, and the occasion will be one of much interest.

McElwee - Blackwell Trade Mark Case.

Charlotte Observer.

We learn that this case was argued on appeal from the Examiner to the Board of Examiners in chief on last Thursday by Mr. W. H. Bailey of this place, for McElwee, and Messrs. Maury, of Washington, and Col. T. B. Fuller, of Raleigh, for Blackwell. The board had not announced their decision up to Saturday night.

Bayard on Finance.

Senator Bayard adddressed a mass-meeting of the Democracy of Sussex county, Delaware, Thursday afternoon, his speech being devoted mainly to a plain, lucid demonstration of the functions of money in relation to credit. He said that cheap money is the result of good credit, and that good credit is based upon a confidence in the honesty of intention and ability of those making pledges to redeem them, and demonstrated that irredeemable paper money fosters speculation and creates a fictitious valuation, under which men are deceived into making promises that they cannot fulfill.

British Distrust of Russia.

N. Y. Tribune.

The distrust of Russia which Sir Stafford Northcote evinces in his speech at Birmingham accounts in part for the hesitation which the British Government manifests in provoking hostilities with the Ameer. The Ministers plainly discern that the large armies which are being organized by Russian officers in Bulgaria and Roumelia may be used to overthrow the Ottoman Power, or to remodel the Turkish provinces in the interest of Russia. Hence Lord Beaconsfield is anxious for the Ameer to apologize, so that he may still be at liberty to menace Russia and intermeddle in Turkish affairs. The irresistible attraction of race and creed, however, conflicts with his Turkish policy, and in time must render it ineffective.

Fashion's Foibles.

Washington Post.

Lace will be more used this fall than for many years.

Bonnets incline to be larger and are growing into the old "poke" shape.

Basket cashemires, brocaded in chintz colors, are very handsome for wrappers.

Some of the new and attractive hats and bonnets are of fine felt covered with hand embroidery.

Lustreless silks, thick and soft, are very popular. They drape elegantly and are very handsome.

A beautiful material for an evening dress is of creamy white or light colored muslin delaine. It is trimmed either with silk ruches or with fine torchon lace.

The new winter mantles have really no well defined or exclusive shape; they are of hybrid style, and comprise a selection of paletots which are always serviceable.

A novelty in flowers are fur and satin blooms and leaves. The finer kind of seal is used, and the fur is trimmed down short and close. The effect is very pretty.

If you would be in the fashion write all notes upon dead-white-gilt-edge card, about four by five inches square. Envelopes can be had to match, and are very neat and pretty.

White barege and white cashmere are used for inexpensive bridal dresses. They are very pretty and stylish when made up with white satin and trimmed with garlands of white flowers.

The leading color combinations for fall, will be garnet and pale blue, ruby and old gold, drab and Jacquiment red, myrtle green and flame color, and white with the various shades of Bordeaux.

Dresses are universally trimmed with embroidery, which is applied if not wrought upon the fabric, or they use combinations of a plain color, with a figured armure or brocade.

Combination dresses of silk and wool are still fashionable, but in the newest costumes the silk is uppermost instead of being the foundation, as when a mixture of materials in one dress was first brought out.

Handsome fringes in waved silk braid, chenille or beads, are still the favorite trimmings. Jet embroidery, mixed with silk and chenille or braid, is the most approved style for rich confections of gros grain or velvet.

At an English garden party not long since, a dress was worn which was made entirely of blue and white silk handkerchiefs. It was the object of general attention, and was greatly admired.

The most attractive new velvets have fine lines and cross bars of delicate tinsel threads woven in the body of the fabric. They shine through the velvety surface, and are very elegant in combination suits.

Breakfast caps are made of white Swiss muslin, ribbons and lace, and are worn by young ladies. They are fastened to the hair with gold or silver pins, some of which have little chains and tiny bells attached.

"Beauty spots" of black court plaster are imported, cut ready for use. We shall expect to see our fair young friends with a coach and four on one check, a pet poodle on the snowy brow, and a cupid nestled cosily under the left ear.

English ladies are all adopting the classic style of coiffure. The hair, either plain or waved, is combed closely back and coiled low at the back of the head. For balls, parties, operas and all full dress occasions, this very sensible and pretty style is universal.

Waistband buckles are either of gilt or silver metal, or of mother of pearl. Tiny brooches for fastening the strings of bonnets, caps and coiffures are fashionable. They are in the shape of a tiny flower, or a lizard, and are of gilt metal of various tints.

The finest things in artificial flowers are the long, full cordons of vivid Autumn leaves, in all the colors of an American landscape, and the wonderfully natural reproduction of branches of the hazel and chestnut, the bursting pods showing the shell or kernel beneath.

The princess dress is not discarded, in spite of the variety of other models equally favored by fashion, but it is undergoing certain modifications which give it a fresher, newer look. The close clinging style is gradually but surely going out of style. Some sort of puffing or plaiting is now required in the middle of the back, beyond the hips.

The leading styles in bonnets at the present moment are the gypsy, Quaker and cottage shapes. In felt these are trimmed with gold and silver cords, braids and embroideries, bright wings and bands of cashmere, feathers and long ends of two kinds of ribbon.

"The latest thing" in sleeve buttons is on exhibition by one of the leading New York houses. They are horse-shoes with diamond nails. In the centre are medallions of old gold, on which are delicately executed paintings of a horse and jockey. A tiny bridle and bit in silver is suspended from each medallion.

A desperate effort will be made by some of the ultra fashionables to revive the panier. A scarf with panier effect is run on some of the new dresses, and is said to be the herald of paniers to come. The style is awkward, ugly and senseless, and ladies of judgment and taste will be very slow to adopt such a bungling affair. A novelty in trimming is a side plaiting so cut as to form a deep scallop at the top and bottom when plaited. This is fastened to the garment either by rows of plain stitching or by cords or bands of silk, satin, or gold or silver braid. In narrow widths it may be used as trimming for waist or sleeves; made wider, it is used for the bottoms of skirts.

Whitelaw Reid's name used to be Jacob W. Reid. Bayard Taylor's used to be James B. Taylor. Jake and Jim were not æsthetic enough for these gentlemen's tastes.

The Sportsman's Paradise.

Correspondence of the News,

NEW RIVER, ONSLOW CO., October 11.

New river, with the exception of the Chowan, is the prettiest sheet of water in the State, its average width for twenty-five miles from its mouth being from two to three miles. At Stone's Bay, about twelve miles from the ocean, it is five miles wide. It has from four to six feet of water at the bar, and from there up to its fork will average about twelve feet, though in many places much deeper.

FINNY TREASURES AND GAME.

In its waters, in the greatest numbers, are found every variety of fish of this latitude, among them the spotted trout, mullet and flounder, so much enjoyed by the people of Raleigh and other interior towns of our State. Great numbers of them are taken to Wilmington and Beaufort and shipped thence. And here, too, are the finest oysters to be found on the Atlantic coast. In the later fall and winter months the beautiful swan, wild goose and every variety of ducks congregate upon its waters and branches. Great rafts of them may be seen, sometimes stretching for miles, in numbers so great that one can scarcely believe who never saw them.

ONSLOW'S COUNTY SEAT.

Jacksonville, the county seat, is located in the fork of this river, about twenty-five miles from its mouth. Any vessel that can cross the bar can go up either of the branches for a number of miles. Jacksonville, before our late war, enjoyed a lively and prosperous trade, but now there is but little done, and the old town looks cast down and neglected. In fact, the people of Onslow and Jones counties seem to drag rather than float smoothly along upon the sea of time, for nowhere in the State have I seen the footprints of the war and the hard times so indelibly marked as here.

NATURAL WEALTH.

The natural resources and the easy and ready means of living are not surpassed anywhere, in or out of North Carolina. Time, no doubt, will wonderfully change the outlook, and the smiles of plenty and an overflowing prosperity will once more bless these people.

THE ABUNDANCE OF DEER.

Among the many amusements down here, and one perhaps many of the citizens most enjoy, is the hunting of the deer, that from "time whereof the memory of man runneth not to the contrary," have, in greater numbers than anywhere in the State, been found here. Around New River and along the Sound they live almost in herds, and are a great pest to many farmers, the pea crop often being entirely destroyed by them. I heard of one gentleman who had to call in the hunters to protect his corn from them (the deer), which, after eating all his peas, commenced to eat his corn. Mr. Felix King, of Jones county, has a park fenced up to raise deer. He now has about a dozen head. A great many wild deer gather in the neighborhood of his park, and often get in and come up with his tame ones, when he shoots them. A few years ago a number of his tame deer strayed off and after a long time returned, but they had forgotten him and would not allow him to come up to them.

DUMB BRUTES' LOVE.

He took his two little daughters out to where they were, and as soon as the deer saw them they ran up, and seemed ever so glad to see them, when the little girls threw their arms around their necks and had their usual sports and plays with them. They then recognized Mr. King, and he could go up to them and handle them as usual. He bells them, and the dogs, so fond of running the wild ones, will not notice them, even if found in the wild woods away from home.

A SWAMPY WILDERNESS.

The great White Owl Swamp lies in this and Jones counties, and the bear and wild cat may here be found. They often make raids upon the green corn and hogs of the neighboring farms, and many interesting and thrilling adventures with them are told by the farmers and professional hunters. Other animals and game abound, and if our Nimrods of Raleigh were down here they could go home, one time at least, satisfied.

A Fortunate Youth.

New York Tribune.

A fair dame of Eureka, Nev., threatened to sue a wealthy gentleman for breach of promise. Rather than have his fellow-men suspect that he was not a man who lived up to his word, he offered to marry her, and procured a license from the County Clerk. At the hour appointed for the ceremony the bride and groom were upon the floor of a hotel before the magistrate, with their hands joined. The bridegroom promptly made his responses and promised to protect and cherish her. The magistrate turned to the bride with the question: "Will you have this man to be your wedded husband?" The response came quickly and angrily: "No, I won't;" and tearing herself away from the bridegroom, she sailed out of the room under full head of steam, with her mother in tow. The bridegroom was stunned for a moment, and then recovering his self-possession, accepted the congratulations of the wedding guests on his unexpected deliverance and ordered up two baskets of champagne.

The Last of the Name.

Louisville Courier Journal.

In the death of Jefferson Davis, Jr., the ex-President of the Southern Confederacy finds the "Davis" name extinct. The young man was his only son, and there is now no one of the blood relatives of the ex-President living who bears the Davis name except himself. The Hon. Reuben Davis, who is a candidate for Congress in Mississippi, is not a relative, as has been asserted. The son just deceased was quite a promising young man, who, as a "child of the regiment" during the war, was loved by all the soldiers. The boy then showed a decidedly military spirit, and has been ever the companion of his father in his journeys about the country in the past few years. The grief of the father must naturally be tinged with a peculiar poignancy.

A Solid South.

N. Y. Tribune.

Pinchback remarks of the South in the next Congress that Republican Congressmen from that section of the country for some time to come "will be as scarce as angels' visits." He thinks the entire delegation will be solid, with a possible exception of one Republican from Tennessee, and one from South Carolina. He adds that the chance of one from the latter State is very small.

Threatening by Postal Card.

New York Times.

A singular suit has just been decided at Rochester, N. Y. Walter J. Osborne brought suit against Alexander Prentice, Jr., alleging that the defendant sent him a postal card, directed in care of his employers, containing among other things, this statement: "You have collected bills due us, and used the money, to the amount of $27,31, so please call and settle and save trouble." The plaintiff held that this was written to injure him in the eyes of his employers; that he was temporarily discharged on account thereof, and, therefore, he demanded $5,000 damages, with costs. The defense moved for a nonsuit, on the following grounds: That a postal card communication was a privileged one; that a declaration or statement written upon it not being necessarily a publication, it was incumbent upon the plantiff to prove not only that malicious publication had been made by the defendant, but also that such publication was not justified in fact; that according to law no one other than the person addressed had any right to the writing on the back of a postal card, and that, therefore, such communication must, in its nature, be a private one. The court refused a non-suit and the jury brough in a verdict of $450 against the defendant. A stay of 60 days was granted. The case is a novel one and without precedent in Supreme Court records.

AMERICA'S INFLUENCE IN FRANCE.

Their Adoption of Our Model for a Bureau of Education.

Washington Post.

The French minister resident in this city has just received from the minister of public instruction in Paris, the report made to him by the commission sent to this country in 1876 by the French government, to examine the educational exhibition at Philadelphia, as well as look into the condition of education here. Copies of the report were also forwarded, through the Secretary of State, to thirty of the leading educators of the United States. The report is believed to be one of the ablest ever made by any foreign government upon education in this country. The commission was composed of six French educators, eminent in their several departments, of whom M. Buisson, who made a like report at Vienna, was the chairman. The report is quite lengthy, covering some 680 pages. It is very discriminating in its expression of opinion, and is more of a discussion than a mere presentation of facts. Among the recommendations which M. Buisson made, two have been chosen for immediate adoption. A gentleman has been selected, and directed to orgrnize a bureau of education under the minister of public instruction, following the plan and upon the model of our National Bureau of Education in this city, and an effort is being made to establish a grade of public schools similar to what is known as the high school in this country.

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America.

A. J. GALLOWAY,
Chair'n Dist. Ex. Com.

THE letter of J. H. Fleming, Esq., to the News, which was published in yesterday's issue, seems to have attracted considerable attention.

And now the Italian brigands, world famous in their profession, have surpassed all former efforts by stealing half a million of dollars while it was being transmitted from Genoa to Ancona.

THE railroad from Vienna to Constantinople will be 1,010 miles in length. Of this only 499 miles remain to be built. When completed Southeastern Europe will become once more what it has not been since the Turks took Constantinople, a part of Europe.

Mr. Watt, the inventor of the widely known plow which bears his name, being in Raleigh last week, took occasion to declare to some Northern visitors that of all the lands and sections he had ever seen, none could compare with certain portions of Western North Carolina, either in soil, climate, or cattle. "It is the finest country on the globe, take it any way you please" he asserted with emphasis.

The work of Congress is being partially mapped out. It is the intention of the Committee on Appropriations of the House to get to work on some of the appropriation bills as soon as possible after the November elections. The Treasury Department will be able by that time to furnish some of the estimates. The appropriation bills, it is thought, will be passed without much opposition, and the outlook is that there will be no occasion which will require the convening of the Forty-sixth Congress in extraordinary session.

THE yellow fever has about run its course. The heavy frosts have come, and there is already a marked decrease in the death-rate. It has been one of the most destructive epidemics the country ever had, and the response to the appeals of the sufferers has been without precedent in our history. The generous sympathy of foreign countries has been remarkable. One day's receipts at the Trocadero Palace in Paris have been devoted to the cause, President MacMahon and many other French citizens, Emperor William and Prince Bismarck of Germany, have given liberally, and a subscription of $800 raised in the city of Canton, China, has just been received. The whole amount raised cannot be less than a million and a half of dollars. This has not all been expended, but much money will yet be needed to repair the desolation wrought by the fever.

Shortly after the August election the question was asked, "Do yon not think there is great danger of Jo. Turner's drawing off enough Democratic votes to elect a Radical to Congress?" "No," was the reply, "Turner will do little "harm. He took the fatal step of "'over-leaping ambition,' when he announced himself for Congress. Had "he gone quietly to the Legislature "and manifested a sincere earnestness "in hunting for the 'Rings,' of which "he has been prating for years, it is "not improbable he might have gained "in popularity, for he has all the arts "of a born demagogue. But the moment he put himself forward for a "higher place his motives began to reveal themselves even to his warmest "friends. So long as he simply aspired "to a seat in the Legislature, that was "a matter for the people of Orange "county to consider; but as an "independent" candidate for Congress, "playing into the hands of the Radicals, and jeopardizing the District at "this critical period, when a Solid "South is so much needed, his course "became a subject of interest to the "whole State, if not to the whole country. Herein was Turner's grand "blunder. A life-long trickster, and "the most reckless editor that ever "wielded pen—not excepting even "Holden,—he has everything to fear "from a full showing up of his record. "Let the calcium-light of the Press be-"gin to shine fearlessly upon his Past "Life, and his popularity will shrivel "like a scorched leaf. No man in North "Carolina had more reason to avoid an "investigation of his career, and when "it is forced upon the Democratic press "to unmask the man, you will see an "astonishing spectacle!"

The march of time has shown the correctness of these views. Turner began his campaign, from the portico of the National, with a bitter, causeless, and unjustifiable assault, not only upon Democratic newspapers, but also upon the character of dozens of private citizens, better men than himself. This was scarce two months ago, but in that interval the mask has been stripped from the Ring-seeker, and the cunning face of the trickster stands revealed in all its deformity.

The Glasgow Bank Failure.

The bursting of that great financial bubble of the century, the Bank of the City of Glasgow, carries with it a weight of woe and damage, which it will take Scotland years to lift from the public shoulders. Failure after failure of leading firms, which toppled at the mere touch of calamity, as falls a house of cards, shake the commercial world to its centre and cause a deadly stagnation of trade. The investigation of the causes of the failure will proceed with all the gravity and slowness which ever characterize English justice. The directors of the bank were promptly arrested under charges of fraud. All of these are men of note in both the commercial and social world. The arrests have created a great sensation, but meet with very general approval. It is shutting the stable door after the steed has been stolen, but there is something admirable in the rigid and swift justice of Scotch law as shown us by the prompt prosecution and arrest of the Glasgow Bank managers. The proceedings seem to be marked with a business like sternness and emphasis which contrast favorably with the flippant and sentimental tone adopted by so many of our own officials and prosecutors in dealing with crimina's and criminal matters of this sort. Had such a financial crash as that of the Glasgow Bank occurred in Wall street, it is to be feared that we should have seen the nimble authors of it showing a clean pair of heels to leaden-footed Justice. What with tardy complaints, delayed arrests, adjourned hearings, habeas corpus postponements, motions and counter-motions and an endless game of cross purposes between the officials, the prosecutor and the defense, the pursuit of offenders of this sort is only too apt to be turned on our side of the water into a farce which makes the judicious grieve while it makes the unthinking laugh.

Referring to the situation the London Times says:

"It looks extremely probable that a call of £500 per share on the shareholders of the City of Glasgow Bank will be enough. For a majority of the shareholders that means absolute ruin. Some of them cannot pay anything and the consequences will be heavy drafts upon the residue, who are rich. These drafts will paralyze business, weaken credit and prove a source of misery to Scotland for years. Banking credit has received a shock which is itself one of the greatest calamities a country could undergo. Confidence is shaken at a time when the condition of trade required it to be peculiarly strong. The mischief thus done is now only beginning to be revealed. Ultimately, doubtless, good will result from the collapse, but meanwhile it hangs over the country like a nightmare, and nobody can be sure that it may not prove the signal for many further disasters.

Well-Toned Systems.

Systems toned and renovated with Hostetter's Stomach Bitters are most effectually defended from disease. That supreme invigorant soon overcomes that distressing feebleness consequent upon ailments which impoverish the blood and relax the muscles. Vigor, appetite, sleep return to the wasted frame, and every physical faculty gains greater activity through its benign influence. Nor is this all, for the Bitters have a most genial and cheering effect upon the mind of the despondent invalid, which is the natural effect, of the increased bodily vitality which they produce. Nervous symptoms disappear in consequence of the use of this medicine, and the evil consequences sure to result from a premature decay of the physical energies are averted. Dyspepsia, liver complaints, rheumatic ailments, urinary and uterine irregularities, malarial diseases, and many other disordered conditions of the system, are remedied by the Bitters!

It charges a rate of premium fully adequate to maintain perfect solvency and which has carried it through the unexampled severity of the past five years in unquestioned strength.

Surplus earnings are annually deducted from the rate charged, reducing the premium really paid each year to the actual cost of carrying the insurance and maintaining the reserve.

It writes only forms of policies of proven utility; and each policy provides for its conversion into paid-up insurance upon fair terms, in case of lapse.

Within a year and a half it has sustained at the hands of a legislative commission, aided by well-known experts, the most protracted and searching examination, both as to its financial condition and methods of business, ever made of any class of corporations, without reduction of assets or the suggestion of change in method.

VEGETINE.

I will try Vegetine. He did AND WAS CURED.

DELAWARE, O., Feb. 16, 1877.

MR. H. R. STEVENS:

Dear Sir,—I wish to give you this testimony, that you may know, and let others know, what Vegetine has done for me. About two years ago a small sore came on my leg; it soon became a large Ulcer, so troublesome that I consulted the doctor, but I got no relief, growing worse from day to day. I suffered terribly: I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted a doctor at Columbus. I followed his advice: it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier," for cleansing the blood from all impurities, curing Humor Ulcers, &c. I said to my family I will try some of the Vegetine. Before I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well nights. I continued taking the Vegetine. I took thirteen bottles. My health is good. The Ulcer is gone and I am able to attend business. I paid about four hundred dollars for medicine and doctors before I bought the Vegetine. I have recommended Vegetine to others with good success. I always keep a bottle of it in the house now. It is a most excellent medicine.

Very respectfully yours,
F. ANTHONI.

Mr. Anthoni is one of the pioneers of Delaware, O. He settled here in 1834. He is a wealthy gentleman, of the firm of F. Anthoni & Sons. Mr. Anthoni is extensively known, especially among the Germans. He is well known in Cincinnati. He is respected by all.

IMPURE BLOOD—In morbid conditions of the blood are many diseases; such as saltrheum, ring-worm, boils, carbuncles, sores, ulcers and pimples. In this condition of the blood try the Vegetine, and cure those affections. As a blood purifier it has no equal. Its effects are wonderful.

CURED HER,

DORCHESTER, MASS., June 11.

DR. STEVENS:

Dear Sir,—I feel it my duty to say one word in regard to the great benefit I have received from the use of one of the greatest wonders of the world: it is your Vegetine. I have been one of the greatest sufferers for the last eight years that ever could be living. I do sincerely thank my God and your Vegetine for the relief I have got. The Rheumatism has pained me to such an extent, that my feet broke out in sores. For the last three years I have not been able to walk; now I can walk and sleep, and do my work as well as ever I did, and I must say I owe it all to your blood purifier, Vegetine.

HOME REMEDY.

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs. Person's father, Mrs. Person lives in Prankliston, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. The thought of the receipt then was new, old and modest, and was away in an upstairs drawer. She concluded as the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name we skipped us, was suffering with some unaccountable affection on the heel. He had been to the Hot Springs in Arkansas and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. ——— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. AS A TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain,

Very respectfully,
T. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Sarsaparilla, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complexion sallow, and now I am WELL.

Respect'fully your friend,
MRS. H. L. BROWN.

Sept. 26, 1878.

THREE CHILDREN IN THREE WEEKS.

CAPPALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief. I also tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of eve getting well. I was treated during the time by three very eminent physicians, without any good result. I then went to the National Sanitarium Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it under that a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits soon fled by the use of the remedy. And I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I pass it on to many and inviting others to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is every where giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the cancer came out, and I was without several days. It soon seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in the action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 220 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 15 years, and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and respectfully,
JOHN HOPE, Jr.

LOCAL BRIEFS.

——A drummer's license was yesterday issued to Hamburger Bros., Norfolk, Va.

——The funeral of an infant son of Frank Lumsden, Esq., was held yesterday morning.

——Attention is directed to the local advertisement of Rand & Barbee Bros. in this issue.

——It is probable that there will be a delegation from this city at the Virginia State Fair, which begins on Monday, at Richmond.

——The Weldon Fair bids fair to be attractive, and will be well attended. The presence of the Bingham Cadets will be a chief feature.

——The streams are reported as overflowing. Crabtree creek was yesterday almost impassable, while the Neuse is very full and rising steadily.

——The police report Catherine Turner, a colored woman, living on east Martin street, near Bloodworth, as being totally destitute, and aid is asked.

——The cotton receipts were unusually light yesterday, and the market was without tone, the wires not working causing no reports of markets to be received.

——The sheriff says people are paying taxes with a rush. He went on a collection visit to Rolesville yesterday, and during the day received $3. This looks like business.

——By some mischance the notices of the speaking of Capt. Davis at Franklinton yesterday were not distributed there, and in consequence but a small crowd were present.

——Complaint is made about the bad condition of Harrington street, at the point where it crosses the R. & G. R. R. track. The matter is referred to the Street Commissioner.

——Letters, unstamped, addressed to Mrs. Amanda Tanner, Graham, N. C., and Mrs. Anna T. S. Manson, 91 Farnsworth street, Detroit, Mich., are held at the postoffice.

——There is a rumor that a change of schedule will go into effect about November 10th., on the N. C. R. R., in which the times of arrival and departure of trains west will be later in the afternoon.

——The subscription price of the DAILY NEWS is in accord with the reduction in everything else, i. e., $5.00 per annum. Subscribe now and get the election news and the proceedings of the Legislature.

——That energetic campaigner, Gen. W. R. Cox, is absent in Nash and Granville, and will devote himself to the Congressional canvass in those counties for the next ten days.

——The heating arrangements of the post office are admirable, and a delicious warmth pervades the lobby. But loafers are not allowed to comfort themselves there, and the chilly tramp is promptly "fired out."

——The Agricultural Museum has had an addition to its curiosities in the shape of a monster sweet potatoe, weighing 8 lbs., grown at the garden of the Insane Asylum, and presented by the clever steward, James H. Moore, Esq.

——Delegates and others who propose attending the Baptist State convention which convenes in Charlotte November 6th, are requested to communicate the fact in advance, by postal card, to Capt. R D. Graham, chief clerk.

——The prize of $100 offered by the ladies of Charlotte for the best drilled military company, is open to competition by all the commands in the State. Charlotte contributed much to the State Fair, and it is hoped will have many visitors from Eastern Carolina at her own exhibition.

——And now the congressional canvass in this district numbers among the aspirants who make it one of the most curious ever known, that citizen of Wake county, Gen Wiley D. Jones, who fills the empty chair of Judge Reade. The Radicals can't stand Turner, and thus comes this.

——The Street Commissioner states that some persons have obstructed the tunnel drain of the rock quarry, and in consequence the water has accumulated to such an extent as to drown out the quarry now in use, preventing all work in getting out stone. Legal steps will probably be taken to open the drain and allow work to begin.

Presbyterian Synod.

Rev. J. S. Watkins, of the First, and Rev. J. M. Atkinson, D. D., of the Second Presbyterian church, left yesterday for Goldsboro, to attend the meeting of the Synod, which, beginning last evening, closes on Sunday.

Railway Examiners.

Several prominent gentlemen of Richmond, Va., composing the Examining Committee of the Richmond and Danville Rail Road were in the city yesterday, and left at an early hour on their return to Greensboro. They made a careful and minute personal inspection of the road-bed, tracks, bridges, warehouses, etc. The party travels in the luxurious car of the President.

Chill Winter's Blasts.

It will not be long ere the reign of the winter's cold will cause the poor to feel another discomfort. That noble organization, the Young Men's Christian Association, will have to commence their annual missions of mercy. The support given this body of workers for the poor and afflicted should be hearty this season, and the press propose to aid the good cause in every way possible.

Personals.

A. M. McPheeters, Esq., leaves today for Goldsboro, where he attends the Synod as a lay delegate from the First Presbyterian Church.

Gen. W. P. Roberts, of Gates, is at the Yarborough.

Sale of Valuable Articles.

Elsewhere appears the advertisement of the sale of a quantity of valuable articles in the possession of the State Agricultural Society. These are of variety too great for enumeration. The sale will be held at the Bagley building, at 7:30 this evening.

For the Sufferers.

Mr. H. A. Gudger, Principal of the Deaf and Dumb and Institution, yesterday sent $62 to the fever sufferers in Baton Rouge, La. The money was raised by the citizens and the pupils of the school.

The punch and judy show had a special performance last evening, the proceeds of which were donated the sufferers by yellow fever.

The Congressional Election.

The chairmen of the various Democratic township committees are informed that the tickets for the Congressional election are ready for distribution, being now in the hands of Capt. J. W. Lee, City Marshal. It is advised that these tickets be taken at once, to insure proper distribution, and the committees are asked to call for them promptly. The tickets may be had at the Mayor's office.

That Lass O' Lowrie's.

The novel "That Lass O' Lowrie's," has just appeared. The scene is laid among the coal pits of England. The characters are admirably conceived and vigorously drawn. The heroine is a rough diamond, the daughter of a collier. This and other tales of Mrs. Frances Hodgson Burnett have had quite a popular run and been well received. Thanks to Charles Scribner & Son, publishers, New York.

The Wilmington Sun.

This new luminary in the world of journalism shed its first beams on Tuesday last. The appearance of the new paper, as well as its contents leave nothing to be desired. It is a handsome 28 column sheet, and is thoroughly Democratic as to its politics. The editor is Mr. Harris, and his ability is manifest. The News bids the new arrival a hearty welcome and gives it a host of good wishes for present and future success.

Gen. Wiley D. Jones to the Fore.

At a meeting of the Republican Campaign Committee of the Fourth Congressional District, held in the City of Raleigh on Wednesday evening, October 23, 1878, to take in consideration the refusal of Hon. Edwin G. Reade to allow his name to be used as a candidate for Congress in said district, on motion, it was unanimously

Resolved, That Hon. Wiley D. Jones, of Wake, be recommended to the Republicans of said district as a suitable candidate to represent them in the House of Representatives of the 46th Congress of the United States, and all good Republicans are earnestly requested and urged to rally to his support.

More Commodious and Convenient.

It is probable that the office of the Western Union Telegraph Company will speedily be moved from its present rather unsuitable location to one easier of access and better adapted to its requirements. For this purpose the first floor of some building in the city will doubtless be chosen. Mr. J. W. Kates, the energetic Superintendent of this Division, who has his headquarters at Richmond, is in the city, and is said to be making arrangements for the change.

Social News.

Mr. Thos. T. Hay and his fair bride, who returned from their northern trip on Saturday, held a pleasant reception at the residence of Major Gales, on Hillsboro avenue, Tuesday evening. Despite the exceeding inclemency of the weather a merry party of friends assembled. Several visiting belles, from other cities, lent the charm of their presence, and the occasion was made one of unalloyed enjoyment.

The home of Major A. M. Lewis was, an evening or so since, the scene of a pleasant sociable, complimentary to some young lady visitors to the city, from Norfolk, Richmond and other points. The affair was much enjoyed by all present.

Great Auction Sale.

The large, double column advertisement in this morning's News, with this heading, will not fail to attract much attention. It will be seen that forty or fifty thousand dollars worth of dry goods, clothing, boots, shoes, &c., will be disposed of at public auction without reserve. The auction will begin Saturday night, Oct. 26th, and continue until the entire stock is sold. Private sales will be carried on during the day. Mr. Z. Zacharias, the energetic manager of the business, has orders to close out at any price, as the proprietors, Messrs. A. Zacharias & Co. have decided to close out their retail business in this city, with a view to opening a large wholesale clothing house in New York City. Read the advertisement and govern yourself accordingly.

Discussion at Oxford.

On Tuesday there was quite an animated and variegated discussion in the Congressional campaign, at Oxford, Capt. Jos. J. Davis, Jo. Turner, Col. I. J. Young, Col. Taz. Hargrove and Gen. W. D. Jones being the speakers. Capt. Davis occupied the court house, which was filled with auditors. He spoke in his usual happy and vigorous style. While he was speaking Jo. Turner held forth to a diminutive crowd in the court house square. Col. I. J. Young spoke and made some remarks about Gen. W. D. Jones, and as soon as he ended, the latter gentleman very plainly referred to Young and his bossing subs and revenue regulators. He also walked into Jo. Turner, desiring to know if any Republican could consistently vote for him. Col. Hargrove also spoke. The warfare between Jones and Young appears to be bitter.

State Sunday School Convention.

The people of Raleigh are thoroughly aroused to the interest of our approaching State Union Sunday School Convention, as well as many other sections of the State. The outlook for a good and successful meeting is indeed flattering. As requested, a good number of representatives from all denominations in the State have already sent us their names with a promise to attend, and many others are still expected. The committees from the various schools in the city are busily engaged in preparing homes for the representatives, and we hope to have the pleasure of entertaining several hundred. The Railroads, too, have made us very liberal offers; and all representatives are requested to ask for "Convention Tickets" at their respective stations. Don't forget this.

The Carolina Central Road will pass delegates both ways on the payment of one full fare. Delegates will ask for returntickets. The Atlantic & N. C. R. R. will pass them at three cents per mile each way. Ask for Convention tickets.

The Raleigh & Gaston, Raleigh & Augusta; Seaboard & Roanoke, and Richmond & Danville Railroads, will pass them for three cents per mile each way. Ask for Convention tickets.

The W. N. C. R. R. offers to pass them on the payment of full fare one way. We have not yet heard from the Wilmington & Weldon and Statesville Roads, but feel sure that they will give us equally good terms. Don't forget to ask your agent for Convention tickets. And send us your name at once.

JOHN E. RAY,
Chairman Ex. Committee.

Capt. Davis' Speech.

This champion of the Democratic cause appeared before a select audience at Metropolitan Hall last evening. His speech was full of argument and pertinent statements of plain truths He spoke of Jo. Turner, whom the radicals now uprear as virtue personified, and inquired as to the consistency of the sudden revulsion of sentiment towards him which Ike Young leads. He spoke of the power and patronage of the revenue service and to what base uses it is put. In each presidential year, under Radical rule, the receipts of the Government from Internal Revenue have fallen below those of the other years, while the miscellaneous expenses have shown a similar increase. This shows that the public money has been used for political ends. This was a telling point and public attention was directed to it. Capt. Davis also spoke of the currency and other questions. This morning he leaves for Chatham, where he speaks at Riggsbee's store.

The Bingham Cadets.

The confusion incident to Fair week caused the notice taken of this magnificent corps to be not at all commensurate with its deserts. Always a feature at the Fair, the cadets this year even exceeded their usual appearance. In numbers they were so strong as to be formed into a battalion. The excellence of their drill, with its clock-work precision of movement, made them the envy of all the militaires. So perfect is their knowledge of tactical instruction, and so able their instructor, that it is no doubt true that they would in no wise suffer by a comparison with any school in the country. The deportment of the scholars is unequalled, and is a model worthy of study by many young men, in this community and elsewhere. To the talented Superintendent, Colonel Robert Bingham, is due all possible praise for and appreciation of his successful efforts to make the school what it is. The presence of 105 pupils at the school speaks highly for its worth in the opinion of the State.

A Generous Contribution.

The proprietors donated several hundred dollars worth of their celebrated Seven Springs Alum Mass for the benefit of the Yellow Fever sufferers, and received the following letter in reply:

HOLLY SPRINGS, MISS., Sept. 16, 1878.

Messs. Landrum & Litchfield, Abingdon, Va.:

GENTLEMEN:—Please accept our thanks for your case of Seven Springs "Iron and Alum Mass," received some days ago. Quite a number of our citizens are using it with good results.

Respectfully,

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and research in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:
A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap alum-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It has established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed

Our statements are correct and are backed by chemists of Lots and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
